Intelligent Devices

Retirement Preserve

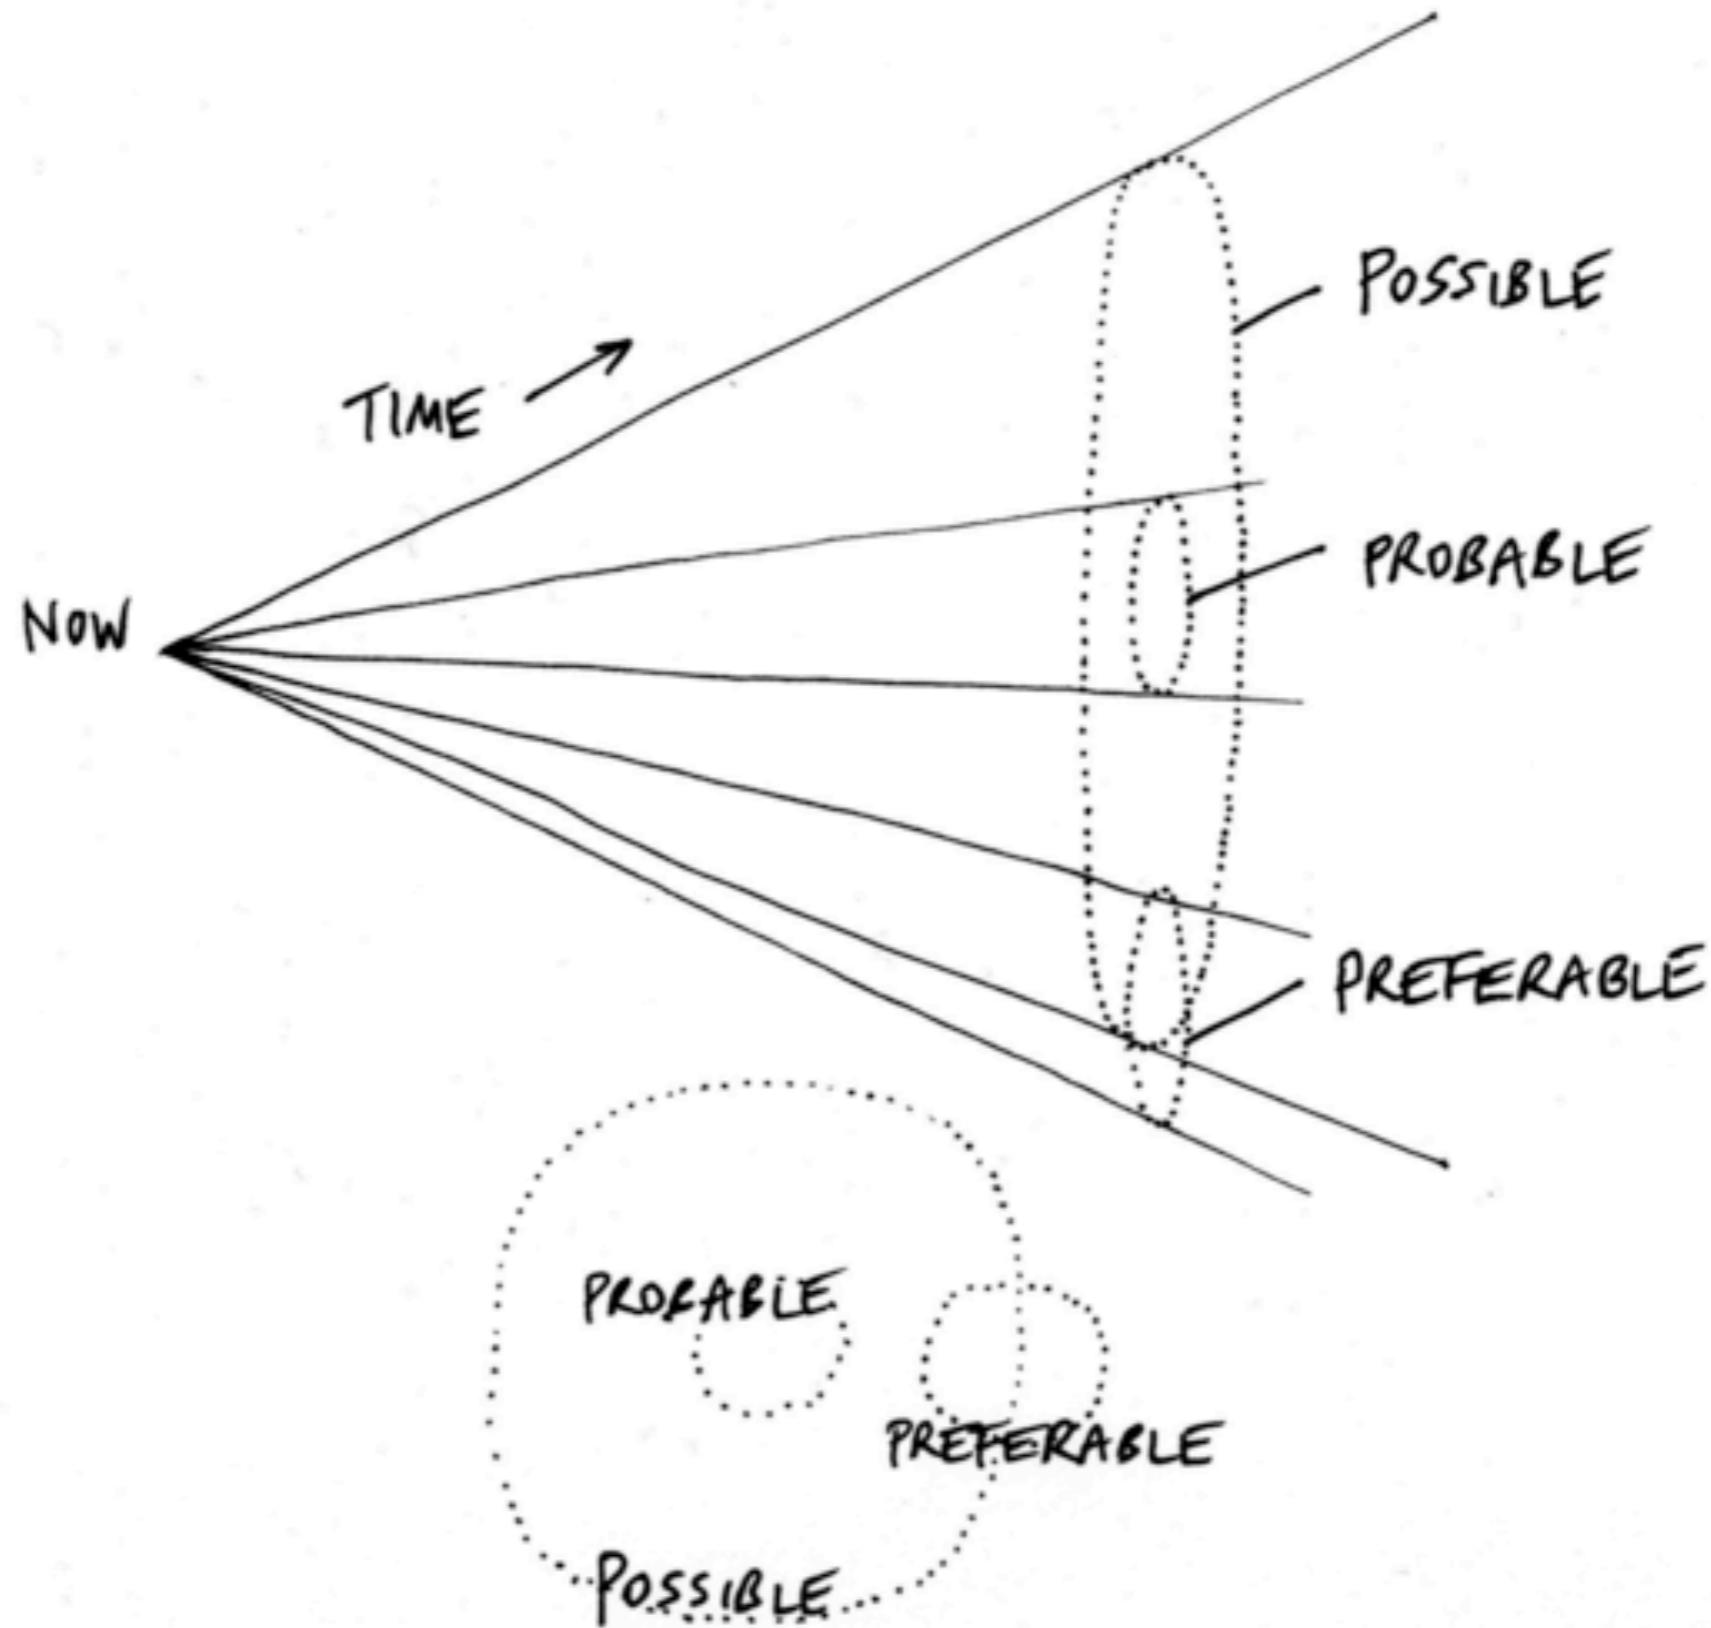

Illustration by Stuart Candy

A close-up, black and white photograph of Arnold Schwarzenegger's face as the Terminator from the movie "Terminator 2: Judgment Day". He has his signature bald head, weathered skin, and one red, glowing eye. His mechanical arm is visible on the left side of the frame, showing its metallic components and tendons. The background is dark and out of focus.

Pre-Retirement

PitchSmart, an intelligent pitchfork designed to make work less straining on the farmer, has committed its retirement to traveling the area and recycling all materials it comes across. In its retirement, PitchSmart has taken on the odd habit of sorting everything by material and color, much like the Bower Bird.

86.32.53.97 Retirement

Smart Mirror originally worked on a farm outside of Prague as an upgrade replacement mirror for the farm's tractor. After retiring, it relocated to Linz to take in a new lovely view. Come visit Smart Mirror and enjoy the vistas.

Its me Ranger John Muuuuher here, here, and I want to welcome you! Come marvel in the herd of devices here at the Intelligent Devices Retirement Preserve. While visiting our amazing preserve, make sure to visit the various (un) Natural Wonders. Feel free to interact with the devices, but be respectful if they choose to be left alone. Have an amazing visit and come again!

Retirement

Come see the amazing vantage point from CCTV 030.496 Overlook. From the perch of CCTV 030.469, you can witness everything that makes you squint with suspicion.

86.32.53.94

Come follow InteliScythe's journey of making enjoyable places for kids to play. InteliScythe Heritage Trail is a government recognized trail that starts where InteliScythe started its historic journey of public service. Come see its amazing generosity.

162.204.126.00

Retirement

Come witness Box Unloader in the wild, and see the magical and mysterious material slabs it makes in its much enjoyed retirement. You will most likely see the more common stone slabs that it creates, but if you are lucky you might be able to witness Box Unloader creating slabs comprised of other intelligent devices (or livestock!).
